

## Monthly Update

For April 2023

Good Morning and Happy May!

I am attaching the Marshall County monthly update. The number of positive cases for Marshall continues to decline. All counties with exception of three in the northeast part of the state are at low transmission levels. Bracken, Mason, and Fleming are experiencing medium levels.

The state of emergency for the pandemic will officially come to an end this month. I plan to continue to send monthly updates pertaining to COVID and any other reportable diseases that may impact our community. If you would like to be removed from this email list, please reply to let me know.

As always, you can contact me anytime.
